

		Stage of the project*			
		Before concept design	At concept design	After concept design	
<b>LA planning status</b>	No formal submission for has been made		Wait for concept design stage	<b>YES a submission is valid.</b>  Submission to BREEAM has to occur before:- -Any information is submitted to the LA. -The end of concept design	Opportunities to reduce environmental impacts are too limited.
	A formal submission has been made, but it does not include information on external products or materials (e.g. a typical outline planning application)			<b>YES a submission is valid.</b>  Submission to BREEAM has to occur before:- -Any information on external products or materials is submitted to the LA. -The end of concept design	
	A formal submission has been made which includes information on external products or materials	No changes required to information already submitted		<b>NO a submission is not valid.</b>  Opportunities to reduce environmental impacts are too limited.	
		A redesign has significantly affected the external products and materials information so a resubmission is needed		<b>YES a submission is valid.</b>  Submission to BREEAM has to occur before:- -The revised information is resubmitted to the LA. -The end of concept design	

\*In situations that are unclear, KBCN1156 should be used to confirm the stage

Ref. KBCN1148 Table – to be read in conjunction with the KBCN and other relevant guidance.
